

Jeoff McLeod from Wellington NSW purchased this heavy elephant bell on his 2008 trip to Burma. It is made from brass and stands about 13 inches tall, plus the staple. Eleanor and myself visited Jeoff in September 2008 when we photographed this item. He has many other bells in his collection from Southeast Asia including those for both water buffalo and elephant. Jeoff's collection can be seen on page 149 of the book.
