

QUEENSLAND DAY 6TH JUNE 2009

The organisers of the Queensland 150th year celebrations could not have wished for better weather for the event. The glorious day was enjoyed by hundreds of visitors as the very large state flag was raised on the new 150 foot pole. This mast was erected especially for the significance of this special year. Jinglestix was invited to participate with a bell display and we were able to speak on stage and ring different bells. We offer special thanks to the following people and their partners for their assistance on the day; Donald Cooney, Dudley Horn and Col Hellyer.
